SUPPLEMENTARY
OWNER'S
HANDBOOK
MINI CONNECTED
MINI CONNECTED

ABOUT THIS OWNER'S HANDBOOK

This Owner's Handbook describes all MINI Connected functions for all standard, national market and optional equipment offered. Therefore, it also describes functions that may not be available on some vehicles on the basis of the model, the equipment level, the production version or the national variant. The same applies to safety-related functions and systems.

Symbols used

"..." Identifies menus or options on the control display or iPhone for selecting functions.

OVERVIEW

Principle

MINI Connected integrates iPhone apps into your car.

- The apps are shown on the car’s control display.
- They are controlled by means of the MINI Joystick.

Some of the functions on the iPhone can be used without a connection to the vehicle.

When you select a function in the vehicle it might take a few seconds for the function to load and be ready for use in the vehicle.

Certain functions are basically incompatible with each other and cannot be used at the same time. In this case, a message is issued to the effect that an active function will have to be terminated.

Please also refer to the information on MINI Connected in the Owner’s Handbook for your car.

Functions

The MINI Connected app includes the following functions:

- Driving Excitement
- MINIMALISM Analyser
- Dynamic Music
- Mission Control
- Web radio
- Send to Car
- Google™ Local Search
- Facebook
- foursquare®
- Twitter
- Calendar
- News
- Plugin

Requirements

- A compatible iPhone: iPhone 3GS or higher.
- Compatible software. iOS5 or higher recommended.
- MINI Connected app on the iPhone.
- Corresponding mobile phone contract.

Extra charges may be incurred for data transfer, depending on usage and the terms and conditions of the mobile phone contract.
STARTING UP

Connection options
▷ Audio/video adapter for Apple iPhone.
▷ Media snap-in adapter
   Only on models with Bluetooth mobile phone prewiring with USB audio interface.
Contact Service for more information about compatible adapters and other connection options.

Connecting

Connection by USB audio interface

1. Plug audio/video adapter into the iPhone, see arrow 1.
2. Plug audio/video adapter USB connector into the car’s USB interface, see arrow 2.
3. Plug audio/video adapter jack plug into the car’s AV-IN connection, see arrow 3.

Connection by media snap-in adapter
The iPhone can also be connected by means of a media snap-in adapter, see the Owner’s Handbook for your car.

Activating
Operation by means of the iPhone.
1. Connect the iPhone or dock it into the media snap-in adapter.
2. "MINI Connected"
3. "MINI Connected"
4. "Check condition"
5. "Activate app"

Starting Driving Excitement
1. "MINI Connected"
2. "Driving Excitement"
3. "Driving Excitement on"
4. Select the desired function:
   ▷ "Sports instruments"
   ▷ "Check condition"
   ▷ "Forcemeter"

Check of vehicle status
The car’s condition is checked automatically when you start Driving Excitement; the scope of the check includes engine temperature, fuel level, outside temperature and, if applicable, precipitation.
To start the function manually:
1. "MINI Connected"
2. "Driving Excitement"
3. "Check condition"

FUNCTIONS

Driving Excitement

Principle
Driving Excitement makes it possible to view functions that impart a sporty driving sensation. The sport instruments and the forcemeter show information about the engine and the style of driving. Tutorials on steering, gearshifting and braking provide tips for safe driving.

Activating Driving Excitement
Operation by means of the iPhone.
1. Unplug the iPhone or remove it from the media snap-in adapter.
2. "MINI Connected"
3. "MINI Apps"
4. "Driving Excitement"
5. "Settings"
6. "Activate app"

Starting Driving Excitement
1. "MINI Connected"
2. "Driving Excitement"
3. "Driving Excitement on"
4. Select the desired function:
   ▷ "Sports instruments"
   ▷ "Check condition"
   ▷ "Forcemeter"

All the available MINI Connected functions are displayed.
The following status report appears if the corresponding conditions are registered:
"BE MINI"

**Sport instruments**
Sport instruments show readings for engine temperature, power and either torque or engine rpm.
1. "MINI Connected"
2. "Driving Excitement"
3. "Sports instruments"
The needles temporarily show the maximum values reached and then drop back.
You can set the unit for engine power and the unit for the scale on the right on the iPhone.

**Setting unit for engine power**
Operation by means of the iPhone.
1. Unplug the iPhone or remove it from the media snap-in adapter.
2. "MINI Connected"
3. "MINI Apps"
4. "Driving Excitement"
5. "Settings"
6. "Units"
7. "Engine power"
8. Select the desired unit:
   ▶ "Kilowatt (kW)"
   ▶ "Horsepower (hp)"

**Setting the unit for the scale on the right**
You can view either torque or engine rpm on the scale on the right.
Operation by means of the iPhone.
1. Unplug the iPhone or remove it from the media snap-in adapter.
2. "MINI Connected"
3. "MINI Apps"
4. "Driving Excitement"
5. "Settings"
6. "Right-hand gauge"
7. Select the desired variable:
   ▶ "Torque (Nm)"
   ▶ "Engine speed (rpm)"

**Forcemeter**
The forcemeter visualises the centrifugal forces acting on the vehicle and shows the direction in which the vehicle accelerates or decelerates.
1. "MINI Connected"
2. "Driving Excitement"
3. "Forcemeter"
For more information about Forcemeter: tutorial on iPhone.

**Viewing a Driving Excitement tutorial**
Operation by means of the iPhone.
1. Unplug the iPhone or remove it from the media snap-in adapter.
2. "MINI Connected"
3. "MINI Apps"
4. "Driving Excitement"
5. "Tutorials"

**MINIMALISM Analysrer**

**Principle**
This function analyses how efficiently the driver accelerates, brakes and changes gear. MINIMALISM points can be gained by adopting as efficient a driving style as possible. They indicate how fuel-efficient the current driving style is in comparison with other MINI drivers taking part in the online ranking.
The number of stars in the acceleration, braking and gearshifting categories indicate the rating for the last ten minutes.
The Allstar timer starts if you score five stars in all categories simultaneously. The timer indicates how long you drive uninterruptedly at maximum efficiency.

**Function requirements**
▶ To be able to activate the highscore and online ranking functions, your agreement to
local storage of the driving style data on your iPhone is required.

- No points can be added to your MINIMALISM score while telephone calls are in progress.
- The gearshifting category is available only if the car has a manual gearbox.

Confirming data storage
Operation by means of the iPhone.
1. Unplug the iPhone or remove it from the media snap-in adapter.
2. "MINI Connected"
3. "MINI Apps"
4. "MINIMALISM Analyser"
5. "Settings"
6. "Activate saving"

Activating MINIMALISM Analyser
1. "MINI Connected"
2. "MINIMALISM Analyser"
3. "Analyser on"
A trip analysis is not stored until you have driven a distance of at least 5 km. Up to 100 trips can be stored on the iPhone. Once this maximum has been reached the oldest trip is deleted whenever a new trip is written into memory.

Viewing high score
1. "MINI Connected"
2. "MINIMALISM Analyser"
3. "My high score"
The following details of the current journey are shown:
- The absolute MINIMALISM score.
- The average MINIMALISM score per km.
- The mileage for the current journey.
  The average MINIMALISM score is not calculated until you have driven a distance of at least 5 km.
The list below shows the previous trips with the highest average points scores in descending order.

Stopping trip analysis
1. "MINI Connected"
2. "MINIMALISM Analyser"
3. "MINIMALISM Analyser"

Starting a new trip assessment
1. "MINI Connected"
2. "MINIMALISM Analyser"
3. "MINIMALISM Analyser"

Allstar timer
The function shows how long you are able to drive in consumption-optimised mode. The Allstar timer starts automatically as soon as you score five stars in all MINIMALISM categories.
The readout shows:
- Current time
- Best time
- MINIMALISM points
To call up your personal best times:
1. "MINI Connected"
2. "MINIMALISM Analyser"
3. "My best Allstar times"
The list shows the best time for the current trip and the four best times ever achieved for comparison.

Analysis of own trips
Operation by means of the iPhone.
1. Unplug the iPhone or remove it from the media snap-in adapter.
2. "MINI Connected"
3. "MINI Apps"
4. "MINIMALISM Analyser"
5. "Overview"
In the top part of the screen, you can scroll through all stored trips.
The number of stars shows the rating in the category concerned. The lower part of the screen details the average MINIMALISM scores achieved per km and trip over time.
Sorting the saved trips
Operation by means of the iPhone.
1. Unplug the iPhone or remove it from the media snap-in adapter.
2. "MINI Connected"
3. "MINI Apps"
4. "MINIMALISM Analyser"
5. "Trips"
The saved trips can be sorted by the following criteria:
▷ Average MINIMALISM score per km.
▷ Date of the trip.
Selecting a specific trip opens the corresponding detailed view.

Online ranking
Once five trips have been stored, you can compare your own high score with other MINI drivers. For that purpose, your average score per 100 km is calculated from your best five trips.

Online ranking: viewing the ten best MINI drivers
Operation by means of the iPhone.
1. Unplug the iPhone or remove it from the media snap-in adapter.
2. "MINI Connected"
3. "MINI Apps"
4. "MINIMALISM Analyser"
5. "Ranking"
6. "Top 10"

Online ranking: viewing your own ranking position
Operation by means of the iPhone.
1. Unplug the iPhone or remove it from the media snap-in adapter.
2. "MINI Connected"
3. "MINI Apps"
4. "MINIMALISM Analyser"
5. "Ranking"
6. "My position"

Deleting saved trips
Operation by means of the iPhone.
1. Unplug the iPhone or remove it from the media snap-in adapter.
2. "MINI Connected"
3. "MINI Apps"
4. "MINIMALISM Analyser"
5. "Settings"
6. "Delete all data"

Viewing a MINIMALISM tutorial
Tutorials on accelerating, braking, gearshifting and the MINIMALISM Analyser provide tips for driving economically.
Operation by means of the iPhone.
1. Unplug the iPhone or remove it from the media snap-in adapter.
2. "MINI Connected"
3. "MINI Apps"
4. "MINIMALISM Analyser"
5. "Tutorials"

Dynamic Music

Principle
The tempo of music tracks specially composed for Dynamic Music adjusts to your driving. These tracks are available for download on the iPhone.

Function requirements
▷ To use Dynamic Music, music tracks have be downloaded to the iPhone.

Downloading music tracks
Operation by means of the iPhone.
1. Unplug the iPhone or remove it from the media snap-in adapter.
2. "MINI Connected"
3. "MINI Apps"
4. "Dynamic Music"
5. "Edit"
Starting Dynamic Music
1. "MINI Connected"
2. "Dynamic Music"

Activating a music track
1. "MINI Connected"
2. "Dynamic Music"
3. Select desired music track from playlist.

Mission Control

Principle
Mission Control enables playback of predefined audio commentaries informing the driver about vehicle characteristics and the present driving style.
Topics are available to download on the iPhone for playback of audio commentaries. Topics include buckling the seat belts, checking fuel level and using the air-conditioning system. Each topic has effects on the properties of the commentaries.

Downloading topics
Operation by means of the iPhone.
1. Unplug the iPhone or remove it from the media snap-in adapter.
2. "MINI Connected"
3. "MINI Apps"
4. "Mission Control"
5. "Edit"
6. Select the ⬆ symbol.
7. Select the desired track.
8. "Download"

Select topic
1. "MINI Connected"
2. "Mission Control"
3. "Themes"

Activating Mission Control
1. "MINI Connected"
2. "Mission Control"
3. "Mission Control"

Web radio

Principle
Enables you to receive web radio stations in the car.
Reception quality depends on the location of the vehicle and the broadband data connection available.

Station search: A-Z search
Searching for specific station names.
1. "MINI Connected"
2. "Web radio"
3. "Search for station"
4. "A-Z search"
5. Select at least three letters.
   Enter letters, see the Owner’s Handbook for the vehicle.
6. "OK"
7. Select station.

Station search: by location
Searching for stations in particular geographical locations.
1. "MINI Connected"
2. "Web radio"
3. "Search for station"
4. "By location"
5. Select continent.
6. Select country.
7. Select state/city.
8. Select station from alphabetically arranged list.
Station search: by genre
Searching for stations featuring specific genres.
1. "MINI Connected"
2. "Web radio"
3. "Search for station" "By genre"
4. Select genre.
5. Select station.

Station search: in the local area
Search for stations in the vicinity of the vehicle’s location.
1. "MINI Connected"
2. "Web radio"
3. "Search for station"
4. "Local stations"
5. Select station.

Station search: MINI Top Stations
Search for the most popular web radio stations accessible through MINI Connected and for these MINI music stations: MINI Space, MINI United, MINI International and MINI Cross.
1. "MINI Connected"
2. "Web radio"
3. "Search for station"
4. "MINI top stations"
5. Select station.

Latest results
Displaying the latest search results.
1. "MINI Connected"
2. "Web radio"
3. "Search for station"
4. "MINI top stations"
5. Select station.

Similar stations
View stations recommended on the basis of the current choice of web radio station.
1. "MINI Connected"
2. "Web radio"
3. "More stations like this"
4. Select station.

Saving favourites
50 stations can be saved as favourites.
1. "MINI Connected"
2. "Web radio"
3. Select the desired station.
4. "Add to favourites"

Opening favourites
1. "MINI Connected"
2. "Web radio"
3. "Favourites"

Deleting favourites
1. "MINI Connected"
2. "Web radio"
3. "Delete from favourites"

Station details
View additional information on the station currently selected, e.g. station name, logo, address or phone number.
1. "MINI Connected"
2. "Web radio"
3. "Station details"

Sound quality
Bit rate, format and overall quality can be selected.
1. "MINI Connected"
2. "Web radio"
3. "Audio quality"
4. Select sound quality.

Send to Car
Principle
Destinations selected in Google Maps can be transferred to the car’s navigation system with
the aid of the iPhone.
Entry of the destination in the car is not required.

Function requirements
▷ To receive destinations via the iPhone and transfer them to the navigation system:
Active MINI Connected user account.

Selecting the desired destination
1. Select the destination in Google Maps.
2. Send the selected destination to the MINI Connected user account.

Transferring destination to navigation system
1. "MINI Connected"
2. "Send to Car"
List of all available destinations. The last 30 destinations are saved. The destination last received is at the top of the list.
3. Select destination from list.
4. The destination co-ordinates are set as the new destination in the MINI navigation system.
5. 🔄 "Start guidance"

Selecting the destination's phone number
If the details include a phone number, you can select that number directly in MINI Connected.
1. "MINI Connected"
2. "Send to Car"
3. Select destination from list.
4. ✆ "Call"

Google™ Local Search
Principle
Google™ Local Search allows you to search for places by location.

Starting search
1. "MINI Connected"
2. "Google™ Local Search"
3. By entering keywords you can search for nearby places for the following locations:
▷ "At current location" The current location of the vehicle.
▷ "At destination" The current navigation system destination. Requirement: route guidance must be active.
▷ "At another location" A location entered manually. Enter the address data of the location of your choice.
4. Enter keyword for places to be searched for. All search terms used to date are also listed and can be selected.
5. "OK"
6. Select place from list. Address, phone number and website address are displayed if available.

Transferring address to navigation system
1. Select desired place from list.
2. The destination co-ordinates are set as the new destination in the MINI navigation system.
3. 🔄 "Start guidance"

Selecting the phone number of the address
If the details include a phone number, you can select that number directly in the MINI Connected app.
1. "MINI Connected"
2. "Send to Car"
3. Select desired place from list.
4. ✆ "Call"

Facebook
Principle
Allows you to view posts and send predefined status messages via Facebook.
Function requirements
▷ Active Facebook account.
▷ Permission for the MINI Connected app to access the user’s profile data.

Logging on
Operation by means of the iPhone.
1. Unplug the iPhone or remove it from the media snap-in adapter.
2. "MINI Connected"
3. "MINI Apps"
4. "Facebook"
5. "Log in to Facebook"
6. Enter user name and password.
7. Complete confirmation.
Operation by means of on-board monitor.
8. Connect the iPhone or dock it into the media snap-in adapter.
9. "MINI Connected"
10. "Facebook"
This can also mean signing on in the Facebook app if it is installed on the iPhone. In this case you will have to sign out separately in the app.

Reading post
1. "MINI Connected"
2. "Facebook"
3. Select post.
To switch between posts:
▷ Preceding post.
▷ Next post.

Rating post
1. "MINI Connected"
2. "Facebook"
3. Select post.
4. "Like"
   A link to the selected post is shown on your profile page.
▷ "Unlike"
The link to the post is removed from your profile page.

Reading comments on a post
1. "MINI Connected"
2. "Facebook"
3. Select post.
4. "Comments"
5. Select comment.

Sending a predefined post
1. "MINI Connected"
2. "Facebook"
3. "What’s on your mind?"
4. Select predefined post from list. Post templates can be created on the iPhone.
5. "Share"

Creating tweets in PostEditor
The PostEditor enables you to create, edit and delete posts on your iPhone. The posts created in the PostEditor can be sent as predefined posts using the MINI Connected Facebook function.
Call up the PostEditor on the iPhone as follows:
1. "MINI Connected"
2. "MINI Apps"
3. "Facebook"
4. "Posts"

foursquare®

Principle
Allows location-related, interactive exchange of information via foursquare®.

Function requirements
▷ Active foursquare® account.
▷ Permission for the MINI Connected app to access the user’s profile data.

Logging on
Operation by means of the iPhone.
1. Unplug the iPhone or remove it from the media snap-in adapter.
2. "MINI Connected"
3. "MiNi Apps"
4. "foursquare"
5. "Log in to foursquare"
6. Enter user name and password.
7. Complete confirmation.
Operation by means of on-board monitor.
8. Connect the iPhone or dock it into the media snap-in adapter.
9. "MiNi Connected"
10. "foursquare"

Selecting place
1. "MiNi Connected"
2. "foursquare"
3. "Venues"
   List of places in the vicinity of the current location, sorted incrementally by distance.
4. Select the desired place.

Details about the place
1. Select the desired place.
2. "Venue info"
The following information is listed:
   ▶ Address
   ▶ Number of tips and possibly offers
   ▶ Distance from current location
   ▶ Mayorships of the place
   ▶ Number of check-ins

Transferring address to navigation system
1. Select desired place from list.
2. The destination co-ordinates are set as the new destination in the MiNi navigation system.
3. "Start guidance"

Check-in
1. Select the desired place.
2. "Check In"
The current points score and, if applicable, the mayorships for the place are displayed.

Check-in history
View the last foursquare® check-ins in chronological order.
Operation by means of the iPhone.
1. Unplug the iPhone or remove it from the media snap-in adapter.
2. "MiNi Connected"
3. "MiNi Apps"
4. "foursquare"
5. "Check-in history"

Viewing tips and offers
Detailed entry and information about the place.
1. Select the desired place.
2. "Tips" or "Specials"
   List of entries about the currently selected place is shown.
3. Select the desired entry.
To switch between entries:
   ▶ | | Preceding entry.
   ▶ | | Next entry.

Reading out tips and offers
1. Select the desired entry.
2. "Read out"
The following options are available while an item is being read out:
   ▶ "Pause"
      Interrupt reading-out. Select again to restart reading-out.
   ▶ "To beginning"
      Read out entry from the beginning.
   ▶ Go back a section.
   ▶ Skip section.
To stop reading-out, tilt the MiNi Joystick to the left.

Friends list
1. "MiNi Connected"
2. "foursquare"
3. "Friends"
   View friends list.
   The list can be filtered:
   > "All friends"
   > "nearby"
4. Select the desired entry from the list.
   The detail view shows the user profile and information about the person's last check-in.

**Twitter**

**Principle**
Allows you to view Twitter posts and send predefined tweets via Twitter.

**Requirements**
- Active Twitter account.

**Logging on**
Operation by means of the iPhone.
1. Unplug the iPhone or remove it from the media snap-in adapter.
2. "MINI Connected"
3. "MINI Apps"
4. "Twitter"
5. "Log in to Twitter"
6. Enter user name and password.
   Operation by means of on-board monitor.
7. Connect the iPhone or dock it into the media snap-in adapter.
8. "MINI Connected"
9. "Twitter"

**Reading tweets**
1. "MINI Connected"
2. "Twitter"
3. Select post.
   To switch between posts:
   > | | Preceding post.
   > | | Next post.

**Viewing post history**
1. "MINI Connected"
2. "Twitter"
3. Select sender.
4. "Timeline"

**Setting favourite**
1. "MINI Connected"
2. "Twitter"
3. Select post.
4. "Favourite"

**Sending a predefined tweet**
1. "MINI Connected"
2. "Twitter"
3. Select predefined post from list. Post templates can be created on the iPhone.

**Retweeting**
1. "MINI Connected"
2. "Twitter"
3. Select post.
4. "Retweet"
5. "Post tweet"

**Setting update interval**
Operation by means of the iPhone.
1. Unplug the iPhone or remove it from the media snap-in adapter.
2. "MINI Connected"
3. "MINI Apps"
4. "Twitter"
5. "Update interval"
6. Select interval.

**Creating tweets in PostEditor**
The PostEditor enables you to create, edit and delete tweets on your iPhone. The posts created in the PostEditor can be sent as predefined
tweets using the MINI Connected Twitter function.

Call up the PostEditor on the iPhone as follows:
1. "MINI Connected"
2. "MINI Apps"
3. "Twitter"
4. "Posts"

**Calendar**

**Principle**
You can view and read out calendar entries from the iPhone in-car.

**Displaying the calendar**
1. "MINI Connected"
2. "Calendar"
Displays appointments for the current day.

**Selecting a calendar day**
1. "MINI Connected"
2. "Calendar"
3. Select the desired week.
   Displays appointments for the selected week.
4. Select the required day or date.
To switch calendar months, choose between the following entries in the months view:

- "Previous month"
- "Next month"

**Displaying appointments**
1. Select the desired appointment.
2. Scroll through the appointment if necessary:

   - Turn the MINI Joystick.
   - Select the symbol.

**Reading out an appointment**
1. Select the desired appointment.
2. ➡️ "Read out"
3. Select the symbol.

The following options are available while an item is being read out:

- ❌ "Pause"
  Interrupt reading-out. Select again to restart reading-out.
- ⏯️ "To beginning"
  Read out appointment from the beginning.
- ⏯️ "Go back a section."
- ⏯️ "Skip section."
- To stop reading-out, tilt the MINI Joystick to the left.

**Managing contact data**
Contact data saved on the iPhone can be viewed in the Control Display.
1. Select the symbol.
2. Using on-board monitor or iPhone to view contact or select a phone number:
   - Select a contact to display the detailed view for it.
   - Select a phone number to establish a connection directly.

**News**

**Principle**
Allows you to view news feeds.

Interface with the news feeds to which you have subscribed through the iPhone.

**Viewing news from subscribed news feed**
Operation by means of the iPhone.
1. Unplug the iPhone or remove it from the media snap-in adapter.
2. "MINI Connected"
3. "MINI Apps"
4. "News"
5. Select news item.

**Adding an RSS feed**
Operation by means of the iPhone.
1. Unplug the iPhone or remove it from the media snap-in adapter.
2. "MINI Connected"
3. "MINI Apps"
4. "News"
5. "Edit"
6. Select the — symbol.
7. Enter the URL for the RSS feed.
8. Select RSS feed and confirm your choice.

Selecting an RSS feed
1. "MINI Connected"
2. "News"
3. "Source/RSS feed"
4. Select RSS feed.
5. Select news item.

Scrolling is not possible while you are driving.
To switch between news items:
- Preceding news item.
- Next news item.

Reading news out loud
1. Select RSS feed.
2. Select news item.
3. "Read out"

- Start reading out.
- Restart reading out.
- Read out the previous paragraph.
- Read out the next paragraph.

Deleting an RSS feed
Operation by means of the iPhone.
1. Unplug the iPhone or remove it from the media snap-in adapter.
2. "MINI Connected"
3. "MINI Apps"
4. "News"
5. "Edit"
6. Select RSS feed.
7. Select the — symbol.
8. Delete the RSS feed.

PlugIn
Principle
Selected functions of an iPhone/iPod are video-linked to the Control Display. Operation by means of the MINI Joystick and the MINI buttons.

Function requirements
- A compatible iPhone or iPod:
  - iPhone 3GS or higher or iPod with iOS 4.1 or higher.
- The MINI Connected app is not necessary.
  Contact Service for more information about compatible adapters and interfaces.

Activating
Operation by means of on-board monitor.
1. Connect the iPhone/iPod or dock it into the media snap-in adapter.
2. "MINI Connected"
3. "PlugIn"
4. "Activate PlugIn"

Operation
When Plugin is activated, the graphical interface of the connected device is shown on the control display. As a result, the control functions of the MINI Joystick and the MINI buttons are different and remain so until PlugIn is deactivated again.

The Plugin controls depend on the iOS version used, e.g. iOS 4.1.

Controls: Home button
- Press once: opens the display menu bar
- Press twice: opens the main menu.
- Press once and tilt MINI Joystick once to the left: opens MINI Connected menu
- Press once and tilt MINI Joystick twice to the left: opens the main menu.
Controls: Toggle button
▶ Press once: returns to next higher menu level on iPhone/iPod.

Controls: MINI Joystick
▶ Press: select/play/pause.
▶ Turn: navigate through lists.
▶ Tilt to the left: skip to the beginning of the current music track or to previous music track in the playlist.
▶ Tilt to the left and hold: rewind.
▶ Tilt to the right: skip to the next music track in the playlist.
▶ Tilt to the right and hold: fast forward.

Deactivating PlugIn
There are several ways of deactivating PlugIn and returning to the MINI control environment.

Deactivating using the Home button
▶ Press once: returns to Activate PlugIn.
▶ Press twice: opens the main menu.
▶ Press once and tilt MINI Joystick once to the left: opens MINI Connected menu.
▶ Press once and tilt MINI Joystick twice to the left: opens the main menu.

Deactivating using the button: change Audio Source
Press once: switches to the last selected audio source.

HELP WITH PROBLEMS

Malfunction
In the event of malfunctions or error messages, proceed as follows:
Operation by means of the iPhone.
1. Unplug the iPhone or remove it from the media snap-in adapter.
2. Connect the iPhone or dock it into the media snap-in adapter.
3. Restart the MINI Connected app.
   If the problem persists, proceed as follows:
   1. Switch off iPhone.
   2. Switch on iPhone again.
   3. Restart the MINI Connected app.
   If the problem still persists, reset the iPhone. To do so, simultaneously press and hold the following buttons for at least ten seconds:
      ▶ Home
      ▶ Standby
   If the problem still persists, initiate a self-diagnosis.

Self-diagnosis: carrying out
The self-diagnosis tests the connection between the car and the iPhone.
Operation by means of the iPhone.
1. Unplug the iPhone or remove it from the media snap-in adapter.

5. "Self-diagnosis"
6. Reconnect the iPhone or dock it into the media snap-in adapter.

Self-diagnosis: result
▶ Successful connection: "Connection OK"
▶ No fault present: "OK"
▶ Fault present: self-diagnosis aborts.

Self-diagnosis: fault rectification
1. Select the symbol.
2. Follow the instructions as they appear.
   If the problem persists, visit the MINI Connected support site at: www.mini.com/connectivity or contact MINI Service.

If the iPhone has been restarted
Try unplugging and reconnecting the iPhone or removing it from and redocking it in the media...
snap-in adapter in order to use the MINI Connected app.

**MINI Connected app is closed**

The MINI Connected app is closed in the following situations:

- If an incoming call is received. The MINI Connected app is restarted after the phone call is finished. There may be delays in the process.
- When making an outgoing call. The MINI Connected app must be restarted after the phone call is finished.
