

MINI COOPER

INTRODUCTION

If you're looking for something with added oomph, then MINI Cooper is the car for you. Adding 15" alloy wheels and a 120 bhp engine to the MINI signature sports chassis means you get a long wheelbase with extra wide track with even greater pulling power. On top of that, there's the chrome grille, contrast roof and side mirrors for that sporty, urban look.

MINI COOPER

DESIGN

Good looks are usually hereditary, and this definitely holds true in the case of MINI. Based on the original design-to-space concept, MINI lives up to its reputation as the one-off small car that creates space on the inside and saves space on the outside.

SAFETY

Six airbags as standard, disc brakes all round, Anti-lock Braking System (ABS with CBC, EBD and Brake Assist) and optional Automatic Stability Control + Traction (ASC+T) and Dynamic Stability Control (DSC) make the MINI Cooper one of the safest driving experiences you can have.

ENGINE

Indulgence doesn't have to come at a price, as the irresistible MINI Cooper shows. Despite a generous extra helping of horsepower (120 bhp) that results in an extremely lively performance, it keeps emissions levels and fuel consumption down to remarkably low levels.

Fuel consumption combined (ltr/100 km) 5.8
CO₂ emission (g/km) 139

DRIVING EXPERIENCE

The wheels of the MINI are pushed out to each corner of the car, giving it a low centre of gravity and superb go-kart style handling. This is enhanced by the multi-link rear suspension – a rare feature in a small car. It makes sure that the rear wheels of the MINI are always in full contact with the road, no matter how bumpy. Gripping stuff!
