

MINI Cooper 3-Door (DATE 09/2025)	
The BMW Group is committed to sustainable principles and is therefore taking proactive measures to avoid certain chemicals in the production of our vehicles. Due to that only substances that are technically required in the product are still contained. The substances are incorporated in such a way that potential exposure to the customers is minimised, and danger for humans or the environment can be excluded as long as the vehicle and its parts are used as intended, and any repair, servicing and maintenance are carried out following technical instructions for those activities, and industry standard good practices. Safe use of the product is described in the owner manual that is consistent with our own commitment to promote the responsible manufacturing, handling and use of our products. Our information on repair and servicing of vehicles and genuine parts also includes safe use information for service personnel. An end-of-life vehicle may only be disposed of legally in the European Union at an Authorised Treatment Facility (ATF). Vehicle parts should be disposed in accordance with locally applicable laws and local authority guidance.	
Communication of information according to Article 33 REACH	
This product is composed of articles defined under Article 3(3) of the Regulation No 1907/2006 of the European Parliament and the Council concerning the registration, Evaluation, Authorisation and Restriction of Chemicals (REACH). Any supplier shall comply with the duty to communicate information on substances in articles in accordance to Article 33. This product, including any article that the product is composed of, does contain substances meeting the criteria in Article 57 and identified in accordance with Article 59(1) in a concentration above 0,1 % weight by weight (w/w). We inform that lead (CAS-Nr. 7439-92-1) is used in almost all products categories, primary as alloying element. Recycled aluminium and metals may contain lead as impurity.	
Name of substance meeting the criteria in Article 57 and identified in accordance with Article 59(1) in a concentration above 0,1 % weight by weight (Typical use according to the REACH Annex XV Dossier)	Location of article containing the substance in the product (Detailed, including optional equipment)
1,2-Dimethoxyethane, ethylene glycol dimethyl ether, EGDME (typically as process solvent and for surface treatment)	Wheels and tires (Car wheels)
6,6'-Di-tert-butyl-2,2'-methylene-di-p-cresol (typically for production of polymers and rubbers)	Body (Safety belts, Window mechanism with electrical control in front door) Chassis (Front axle suspension) Drive Assistance (Distance warning systems) Interieur (Mirrors, sun visors, ashtrays, trays) Powertrain (Fuel lines, Ventilation, evaporation emission control)
2-Methyl-1-(4-methylthiophenyl)-2-morpholinopropan-1-one (typically used in coatings, paints and fillers)	Body (External fittings) Entertainment and Navigation (Radio, amplifier, CD-player) Interieur (Mirrors, sun visors, ashtrays, trays)
2-Methylimidazole (typically as hardener in epoxy resins and for production of adhesives)	Chassis (Output shafts) Entertainment and Navigation (Anti-theft device)
4,4'-Isopropylidenediphenol (typically for production of polymers and resins)	Entertainment and Navigation (Radio, amplifier, CD-player)
Bis(α,α-dimethylbenzyl) peroxide (typically used for production of polymers and as a processing aid and cross-linker in polymers)	Body (Air guides, Airbags) Chassis (Front wheel brakes) E-Drive (Drive for wiper unit/headlight cleaning unit) Electronic (Inner lights, Windshield wipers) Heating and air conditioning (Air conditioner, Heater with control, seat heating) Powertrain (Supercharging contrivance with regulation, Thermostat and engine mounted cooling lines, Vibration damper) Powertrain/Chassis (Board equipment) Wheels and tires (Car wheels)
Diazene-1,2-dicarboxamide, ADCA (typically as blowing agent in plastic and rubber manufacturing)	Body (Bodyshell, External fittings) Chassis (Rear axle suspension) Entertainment and Navigation (Loudspeaker and cover) Interieur (Front door trim panel with armrests)
Diboron trioxide (typically for production of borosilicate and crystal glass)	Body (Boot lid latch, locks and fittings) Communication (Off-hands mobile communication) Electronic (Front lamp cluster, Rear light cluster) Entertainment and Navigation (Airbag-releasing device, Video and tv-sets) Interieur (Mirrors, sun visors, ashtrays, trays)
Boric acid (typically for production of glass and ceramics and as flame retardant)	Electronic (Windshield-washer unit) Powertrain (Starter with mount)
Decamethylcyclopentasiloxane (typically as feedstock for the production of silicone polymers)	Heating and air conditioning (Air conditioner) Interieur (Mirrors, sun visors, ashtrays, trays) Powertrain (Housing cover, Injection nozzles and tubing, Oil pressure, - temperature, oil level indicator)
Dicyclohexyl phthalate (typically as plasticizer for production of polymers)	Chassis (Steering column) Electronic (Rear light cluster)
Dodecamethylcyclotetrasiloxane (typically as feedstock for the production of silicone polymers)	Heating and air conditioning (Air conditioner) Powertrain (Carbon canister ventilation, Housing cover, Injection nozzles and tubing, Sensor for injection control unit)
Imidazolidine-2-thione (typically for production of polymers and rubbers)	Communication (Off-hands mobile communication)
N,N-Dimethylacetamide (typically as process solvent in polymer production)	Interieur (Side trim panel with armrests)
Octamethylcyclotetrasiloxane (typically as feedstock for the production of silicone polymers)	Interieur (Mirrors, sun visors, ashtrays, trays) Powertrain (Housing cover, Injection nozzles and tubing, Starter with mount)
Triphenyl phosphate (TPP); (typically used for adhesives and sealants, coating products)	Chassis (Anti-block system electrical components) Entertainment and Navigation (Video and tv-sets) Interieur (Mirrors, sun visors, ashtrays, trays) Powertrain (Engine cooler with mounting)
Tris(4-nonylphenyl, branched and linear) phosphite, TNPP (typically for production of polymers and rubbers)	Chassis (Rear wheel brakes) Interieur (Sliding roof)
2,2',6,6'-tetrabromo-4,4'-isopropylidenediphenol (typically as flame retardant and as additive in plastics and resins)	Drive Assistance (Interior camera) Electronic (Brake lights, Control units, moduls) Entertainment and Navigation (Airbag-releasing device, Radio, amplifier, CD-player) Interieur (Mirrors, sun visors, ashtrays, trays) Powertrain (Double clutch transmission)
Melamine (typically used in coatings, inks, resins and polymers)	Body (Loose car body components) Communication (Off-hands mobile communication) Electronic (Switch, sensor) Entertainment and Navigation (Video and tv-sets) Interieur (Front seats) Powertrain (Fuel tank with filler pipe)
Bumetrizole (typically as plasticizer for production of polymers and paints)	Body (Boot lid latch, locks and fittings, Loose car body components, Window mechanism with electrical control in front door) Chassis (Steering column) Electronic (Windshield-washer unit) Heating and air conditioning (Air conditioner) Interieur (Mirrors, sun visors, ashtrays, trays)
1,3,5-Tris(oxiran-2-ylmethyl)-1,3,5-triazine-2,4,6-trione, TGIC (typically for production of resins and coatings)	Electronic (Front lamp cluster)
Bis(4-chlorophenyl)sulfone (typically for production of polymers and rubbers)	Powertrain (Fuel tank with filler pipe)
Diphenyl(2,4,6-trimethylbenzoyl)phosphine oxide (typically as additive in plastic applications, for adhesives, sealants, coatings and inks)	Communication (Off-hands mobile communication) Interieur (Mirrors, sun visors, ashtrays, trays) Powertrain (Exhaust pipe with catalyst or complete system, DPF)
Cobalt(II) nitrate hexahydrate (typically as additive in magnets for electronic assemblies)	Electronic (Head-up Display)
2-(2H-benzotriazol-2-yl)-4-(1,1,3,3-tetramethylbutyl)phenol (typically as dispersing agent in coatings, adhesives, sealants, printing inks, fillers)	Body (Air guides, External fittings) Chassis (Steering column) Communication (Off-hands mobile communication) Drive Assistance (Interior camera) Electronic (Inner lights, Rear light cluster, Switch, sensor) Entertainment and Navigation (Radio, amplifier, CD-player) Interieur (Instrument panel, Mirrors, sun visors, ashtrays, trays)
2-benzyl-2-dimethylamino-4'-morpholinobutyrophenone (typically for adhesives, sealants, coatings and inks)	Drive Assistance (Rear view camera) Electronic (Control units, moduls)
The information provided in this document related to material and substance content represents our knowledge and belief, which may be based in whole or in part on available information provided by suppliers to us. Additional Information: Certain inorganic oxides are bound in glass or ceramic matrices that change their individual substance properties as well as their communication duties under REACH. Similar changes occur with certain precursors that are bound in polymers.
