

MINI Countryman (DATE 02/2025)																																																					
<p>Le BMW Group soumont aux principes fondamentaux de la durabilité et prend activement des mesures destinées à éviter certains produits chimiques dans la production de véhicules. De ce fait, les produits ne comportent que les substances qui sont indispensables pour des raisons techniques. Ces substances sont liées dans les matériaux et l'émission possible est limitée à un minimum lors d'une utilisation conforme. Par conséquent, un risque pour l'homme et pour l'environnement à ce sujet peut être exclu selon toute probabilité. Cela inclut que le véhicule et ses pièces soient utilisés aux fins prévues et conformément à la notice d'utilisation et que les mesures d'entretien et les réparations soient effectuées conformément aux normes en vigueur, par du personnel formé respectant les consignes techniques. L'utilisation sûre du produit est expliquée dans sa notice d'utilisation. Cette notice reflète notre désir d'encourager la fabrication, l'usinage et l'utilisation soucieux de l'environnement de nos produits. Nos notices et informations concernant la réparation et les tâches d'entretien ainsi que les pièces de rechange d'origine BMW comportent en outre des consignes de sécurité à respecter par le personnel d'entretien. Conformément aux réglementations en vigueur dans l'UE, un véhicule en fin de vie ne doit être traité que par un établissement homologué pour ce genre d'opération. Les pièces du véhicule doivent alors être éliminées en accord avec les lois régionales et les autorités compétentes au niveau régional.</p> <p>Mise à disposition d'informations en vertu de l'article 33 du règlement REACH</p> <p>Le présent véhicule est composé de produits qui sont définis par l'article 3(3) du règlement 1907/2006 du Parlement européen et du Conseil concernant l'enregistrement, l'évaluation et l'autorisation des substances chimiques ainsi que les restrictions applicables à ces substances (REACH). En vertu de l'article 33, chaque fournisseur est tenu de mettre à disposition des informations sur les substances se trouvant dans les produits. Le présent véhicule y compris tous les produits qui le composent, renferme des substances qui répondent aux critères de l'article 57 et ont été identifiées en une concentration supérieure à 0,1% du poids en vertu de l'article 59(1). Nous vous informons également que du plomb (numéro CAS 439-92-1) est utilisé dans presque toutes les catégories de produits, principalement sous forme de composant d'alliage. Cette substance peut aussi être présente comme composant dans des matériaux métalliques recyclés.</p>																																																					
<table border="1"> <thead> <tr> <th>Name of substance meeting the criteria in Article 57 and identified in accordance with Article 59(1) in a concentration above 0,1 % weight by weight (Typical use according to the REACH Annex XV Dossier)</th><th>Location of article containing the substance in the product (Detailed, including optional equipment)</th></tr> </thead> <tbody> <tr> <td>1,2-Dimethoxyethane, ethylene glycol dimethyl ether, EGDM (typically as process solvent and for surface treatment)</td><td>Wheels and tires (Car wheels)</td></tr> <tr> <td>6,6'-Di-tert-butyl-2,2'-methylene-di-p-cresol (typically for production of polymers and rubbers)</td><td>Body (Boot lid latch, locks and fittings, Safety belts) Chassis (Front axle suspension) Drive Assistance (Distance warning systems) Electronic (Control units, modules) Entertainment and Navigation (Anti-theft device) Intérieur (Mirrors, sun visors, ashtrays, trays) Powertrain (Electronic switching or control devices, Fuel lines, Ventilation, evaporation emission control)</td></tr> <tr> <td>2-Methyl-1-(4-methylthiophenyl)-2-morpholinopropan-1-one (typically used in coatings, paints and fillers)</td><td>Electronic (Cable harness) Entertainment and Navigation (Antenna) Intérieur (Mirrors, sun visors, ashtrays, trays)</td></tr> <tr> <td>2-Methylimidazole (typically as hardener in epoxy resins and for production of adhesives)</td><td>Chassis (Output shafts, Front wheel brakes)</td></tr> <tr> <td>4,4'-Isopropylidenediphenol (typically for production of polymers and resins)</td><td>Electronic (Control units, modules)</td></tr> <tr> <td>Bis(α,α-dimethylbenzyl) peroxide (typically used for production of polymers and as a processing aid and cross-linker in polymers)</td><td>Body (Air guides, Airbags) Chassis (Front wheel brakes, Rear wheel brakes) Electronic (Inner lights) Heating and air conditioning (Heater with control, seat heating, Air conditioner) Powertrain (Vibration damper, Coolant pump with drive, Thermostat and engine mounted cooling lines, Supercharging contrivance with regulation, Expansion tank) Powertrain/Chassis (Board equipment) Wheels and tires (Car wheels)</td></tr> <tr> <td>Diazene-1,2-dicarboxamide, ADCA (typically as blowing agent in plastic and rubber manufacturing)</td><td>Body (Bonnet latch, locks and fittings)
